Mr. Young in reply to questions said that his correspondence indicated that about two-thirds of the states of the confirmed the statement that the meeting was intended to be simply a conference of Democratic leaders to shape the party policy on the silver question as far

as possible.

The meeting was called to order at 12 o'clock by Senator Harris, who moved that Senator Jones be called to the chair as temporary chairman, which motion carried numinously. George M. Lecrone of Illinois was chosen secretary.

The meeting began behind closed doors, with instructions to the doorkeepers to admit only those who had

When the roll was called representatives answered from 22 states, but names were given to the secretary from only 19. Virginia headed the list in point of members, with 15 delegates, while Illinois and Missouri reported 14 each. Other states represented were: Alabama 4, Ohio 1, Georgia 2, Indiana 1, Delaware I, Maryland 3, Kentucky I, Mississippi 1, North Dakota 1, West Virginia 2, Arkansas 3, Colorado 8, South Carolina 1, North Carolina 3, Florida 4, headed by Senator Call, and Tennes-

Senator Jones made a brief speech on taking the chair, confining himself to thanking the conference for the honor and expressing the hope that the pro-ceedings would be harmonious and pro-

ductive of good results. Senator Daniel headed a resolution providing for the appointment by the chair of a committee to prepare a program and resolutions, which was carried, and the committee announced. After the appointment of this commit-

When Senator Daniel reported to the full conference at 4 o'clock the committee had not authorized the draft of a platform and none of the members were able to say when the report would be completed. The proceedings of the committee developed some differences of opinion as to the line of policy to be recommended, but these were not of a sufficiently radical nature to cause ap-

prehension of serious delay. The committee proceedings indicated that the report when read would recommend the issuance of an address to the Democratic party of the country urging in very strong terms the maintenance of the silver cause in the Democratic ranks, and also outline a plan for the organization of the silver forces in the party with a view to the selection of delegates to the next national convention This plan will probably embrace the appointment of a central committee with a member from each state and territory, who shall in turn select a member from every county, the latter to have the power of appointing a member from every voting precinct in his county. The plan includes provision for national headquarters, probably at Wachington
